"For eighteen months he was under the treatment of some of the most eminent medical men of Baltimore without benefit. In this very critical condition he came under my treatment. After exhausting all of my resources, and becoming satisfied that medicine was unavailing in the case, I advised the Buffalo Lithia Water, Spring No. 2. His stomach, however, was in a highly irritable condition, and I found it necessary to administer it in very small quantities; and it was at first given not exceeding an ounce at a dose, repeated at stated intervals. At the expiration of the third day the irritability of the stomach was decidly less, and the quantity was then increased from day to day until the thirteenth day, lished? for the general excuse the poor offer for begging is that they can get no-thing to do. Persisting in its use, on the twenty-eighth day he was free from pain, the stomach in a normal condition, readily receiving both solids and fiquids in moderate quantities, strength greatly increased, and nervous symptoms entirely relieved. At the expiration of the seventh week he was able to attend actively and regularly to his business upon the farm. His recovery, which I regard as one of the most remarkable I ever knew of, I attribute entirely to the Buffalo Lithia Water."
